Certifications Docker Foundations Professional Certificate, LambdaTest Test Automation Professional Certificate

PROJECTS

Patriot Pop

- Spearheaded the development of the DJ page for Patriot Pop, a burgeoning radio station targeting college students
- Utilized **Figma** for wireframing and effectively integrated front-end and back-end technologies.
- Programmed the front-end using **JavaScript** and **EJS**, ensuring a dynamic and user-friendly interface that enhances visitor engagement.
- Implemented back-end functionalities using **Node.js**, **MongoDB**, and **SQL** to manage data interactions and site performance.

Pitch Desk AI

- Developed an AI Chrome extension to upload, parse, and analyze pitch desk PDF documents using pdf.js and **OpenAI API**.
- Implemented a user-friendly interface for extracting and displaying text content from PDFs
- Addressed and resolved Content Security Policy issues, ensuring smooth script execution and resource loading
- Utilized **JavaScript**, Node.js, HTML/CSS, and **Axios** for **API Integration** and efficient data handling.

VyBot

- Developed an interactive game bot to enhance the Discord user experience as part of a team project
- Created top-level architecture diagrams to guide the development process
- Conducted product prototyping to test and refine features, ensuring a user-friendly and efficient design.
- Developed comprehensive test cases using **Python** and the **selenium** framework

LEADERSHIP

Vice President

MSN A Cappella @ GMU

Aug 2023 – May 2024

Fairfax, VA

- Coordinated and managed logistics of concerts, performances, and travel.
- Designed and maintained the website of the organization using WordPress and HTML.
- Managed all social media platforms and social media networking.
