EDUCATION

George Mason University
B.S in Computer Science

August 2022 - December 2024

Relevant Coursework: Algorithms, Operating Systems, Data Structures, Object Formal Methods, Mobile App Development, Database Concepts, Object-Oriented Programming, Web App Development

TECHNICAL SKILLS

Languages Java, C, Python, JavaScript, TypeScript, SQL
Technologies AWS, Azure, React, Node.js, Next.js, Linux, Selenium, HTML/CSS, Git, Docker, Figma
Certifications Microsoft UX Design Professional Certificate, LambdaTest Test Automation Professional Certificate,

EXPERIENCE

Ampcus Inc.
Software Engineer Intern

Chantilly, VA
September 2024 – December 2024

- Developing a third-party risk management SaaS product using **NextJS**, **TypeScript**, **JavaScript**, **React**, and **Tailwind CSS**.
- Collaborating with cross-functional teams, including designers and back-end developers, to create seamless user experiences.
- Integrated backend APIs for web application pages using **React Query**, boosting data retrieval efficiency by 20%.
- Gaining hands-on experience in Agile development methodologies, participating in sprint planning, and code reviews.

PROJECTS

Patriot Pop | *JavaScript, EJS, Node.js, MongoDB, SQL* |

- Spearheaded the development of a Radio Station Management System, a radio station targeting college students.
- Programmed the front-end using **JavaScript** and **EJS** and utilized **Figma** ensuring a dynamic and user-friendly interface.
- Implemented back-end functionalities using **Node.js**, **MongoDB**, and **SQL** to manage data interactions and site performance.

Pitch Desk AI | *OpenAI API, JavaScript, Node.js, Axios* |

- Developed an AI Chrome extension to upload, parse, and analyze pitch desk PDF documents using pdf.js and **OpenAI API**.
- Implemented a user-friendly interface for extracting and displaying text content from PDFs.
- Utilized **JavaScript**, Node.js, HTML/CSS, and **Axios** for **API Integration** and efficient data handling.

Cloud Mart | *Java, Firebase Cloud, Firestore, Android Studio* |

- Developed an Inventory Management Android App using **Java**, integrating **Firebase Cloud** Authentication for secure access.
- Implemented **Firestore** for real-time inventory updates and offline data synchronization, enhancing operational efficiency.
- Designed secure data interactions and scalable cloud management using Firebase features to ensure data integrity.

P11 Data RAG Pipeline | *Python, Langchain, Pinecone* |

- Experimented with **Langchain**, **Pinecone** and **Python** to deploy agent workflow to answer questions for documents.
- Created workflow which included 5TB of data into vector embeddings and deployed RAG with LLMs.

LEADERSHIP

Vice President
MSN A Capella @ GMU

August 2023 – May 2024
Fairfax, VA

- Coordinated and managed logistics of concerts, performances, and member conflicts.
- Designed the UI and maintained the website of the organization using WordPress and HTML.
- Managed all social media platforms and social media networking.
