Technologies AWS, Azure, React, Node.js, Next.js, Linux, AWS, Selenium, HTML/CSS, Git, Docker, Figma

Certifications LambdaTest Test Automation Professional Certificate, AWS Solutions Architect (In Progress).

EXPERIENCE

Software Engineer Intern

Ampcus Inc.

Sept 2024 – Present

Chantilly, VA

- Developing a third-party risk management SaaS product using **NextJS**, **TypeScript**, **JavaScript**, **React**, and **Tailwind CSS**.
- Collaborating with cross-functional teams, including designers and back-end developers, to create seamless user experiences.
- Integrated backend APIs for web application pages using **React Query**, boosting data retrieval efficiency by 20%.
- Gaining hands-on experience in Agile development methodologies, participating in sprint planning, and code reviews.

PROJECTS

Patriot Pop - Radio Station Management System

- Spearheaded the development of the DJ page for Patriot Pop, a burgeoning radio station targeting college students.
- Programmed the front-end using **JavaScript** and **EJS** and utilized **Figma** ensuring a dynamic and user-friendly interface.
- Implemented back-end functionalities using **Node.js**, **MongoDB**, and **SQL** to manage data interactions and site performance.

Pitch Desk AI

- Developed an AI Chrome extension to upload, parse, and analyze pitch desk PDF documents using pdf.js and **OpenAI API**.
- Implemented a user-friendly interface for extracting and displaying text content from PDFs.
- Utilized **JavaScript**, Node.js, HTML/CSS, and **Axios** for **API Integration** and efficient data handling.

VyBot

- Developed an interactive game bot to enhance the Discord user experience as part of a team project.
- Created top-level architecture diagrams to guide the development process.
- Conducted product prototyping to test and refine features, ensuring a user-friendly and efficient design.

PII Data RAG Pipeline

- Experimented with **Langchain**, **Pinecone** and **Python** to deploy agent workflow to answer questions for documents.
- Created workflow which included 5TB of data into vector embeddings and deployed RAG with LLMs.

LEADERSHIP

Vice President

MSN A Cappella @ GMU

Aug 2023 – May 2024

Fairfax, VA

- Coordinated and managed logistics of concerts, performances, and travel.
- Designed the UI and maintained the website of the organization using WordPress and HTML.
- Managed all social media platforms and social media networking.
