EDUCATION

George Mason University
Bachelor of Computer Science

Fairfax, VA
August 2022 - December 2024

Relevant Coursework: Algorithms, Operating Systems, Data Structures, Object Formal Methods, Mobile App Development, Database Concepts, Object-Oriented Programming, Web App Development

TECHNICAL SKILLS

Languages JavaScript, TypeScript, Java, C, Python, SQL
Frameworks AWS, Azure, React, Node.js, Next.js, Linux, Selenium, HTML/CSS, Git/VSC, Docker, Figma
Certifications Microsoft UI/UX, Docker Foundations Professional, LambdaTest Automation Professional

EXPERIENCE

Ampcus Inc.
Jr. Software Engineer

Chantilly, VA
January 2025 – Present

- Contributed to the development of *ComplyX*, a TPRM and PCI-DSS compliance SaaS platform using **Next.js**, **TypeScript**, **JavaScript**, **React**, and **Tailwind CSS**.
- Spearheaded the integration and UI of real-time disaster monitoring using **GDACS** data and **Google Maps API** to enhance location-based risk assessment for **thousands** of third-party suppliers impacted by supply chain disruptions.
- Designed and integrated an **agentic AI** chatbot with **Salesforce** integration using **Botpress**, enabling automated responses to supplier-related queries for enterprise clients such as Amazon, streamlining vendor communication and support.
- Integrated RESTful backend APIs using **React Query** to improve compliance data retrieval by 20%.

Software Engineer Intern

September 2024 – December 2024

- Assisted the UI architect with the early-stage design and development of multiple SaaS products.
- Implemented client-side state management using **Zustand**, optimizing user state handling and overall application performance.
- Utilized **Git** version control and **Azure DevOps** for branch management, bug tracking, and work item management.

PROJECTS

Patriot Pop | *JavaScript, EJS, Node.js, MongoDB, SQL* |

- Spearheaded the development of a Radio Station Management System, a radio station targeting college students.
- Implemented back-end functionalities using **Node.js**, **MongoDB**, and **SQL** to manage data interactions and site performance.

Pitch Desk AI | *OpenAI API, JavaScript, Node.js, Axios* |

- Developed an AI Chrome extension to upload, parse, and analyze pitch desk PDF documents using pdf.js and **OpenAI API**.
- Utilized **JavaScript**, Node.js, HTML/CSS, and **Axios** for **API Integration** and efficient data handling.

Cloud Mart | *Java, Firebase Cloud, Firestore, Android Studio* |

- Developed an Inventory Management Android App using **Java**, integrating **Firebase Cloud** Authentication for secure access.
- Designed secure data interactions and scalable cloud management using Firebase features to ensure data integrity.

LEADERSHIP

Vice President
MSN A Capella @ GMU

August 2023 – May 2024
Fairfax, VA

- Directed all concert, travel, and gig logistics for 15+ members; led website design and managed fundraisers, and operations.
